## 電気通信大学 平成20年度シラバス

### 【授業内容とその進め方】

In class, we will discuss various topics. I will choose the first topic, but I will ask the students to choose all the other topics. Students will decide on whether discussions should be done in small groups, as a whole class, or a mixture of both. Class discussions will be continued on an online bulletin board. Each student will write one or two essays, depending on the grade that he or she chooses. The topic of each essay should be related to one of the topic that we have discussed in class. At the end of the semester, some students will give presentations related to one of their essays.

### 【成績評価方法及び評価基準(最低達成基準を含む)】

Grades will be based on the amount and quality of each student's work. At the beginning of the semester, each student will decide what grade he or she will work for. This will be explained in more detail in class.

### 【オフィスアワー：授業相談】

Tuesdays, 10:40 to 12:10, or by appointment

### 【学生へのメッセージ】

In order to learn English, it is important to try to use English. In this class, students will use English with me and with other students.

### 【その他】

Class size will be limited to 30. I will give first priority to students who come to my office in advance to tell me that they want to take this class.
