## 電気通信大学 平成16年度シラバス

### 【授業内容とその進め方】

The first half of this course focuses on understanding different types of general readings. For example, opinions, explanations, research and graphs. The second half of the course focuses on understanding different types of academic and scientific readings.

Speaking skills will be integrated with reading and writing. Readings will come from many different sources, including newspapers, magazines, journals and the internet. There is no textbook. All materials will be provided by the teacher.

The course will be designed to match the needs and interests of the students. pair work and group work activities will be used. Topics will come from Japan and around the world. The course will be taught in English.

### 【成績評価方法及び評価基準(最低達成基準を含む)】

The course will be assessed in the following ways:

1. Class attendance
2. Class participation
3. Homework
4. Class assignments
5. Final test

For a grade of A, students must be excellent in all five areas.

For a grade of Fail, students must be unsatisfactory in all five areas.

### 【オフィスアワー：授業相談】

Office hour: Tuesday, Period 5, 4:15 - 5:45 pm
